MORE THAN BEAUTIFUL PRODUCTS

House Doctor was brought to life based on a desire to inspire and help people create their own unique space by bringing balance, simplicity and authenticity into their home.

The brand's aesthetics are rooted in the Scandinavian design tradition with industrial notes and a touch of inspiration from around the world. Our collections are carefully curated and full of unique items for you to create your own individual and personal style.

Our products are designed in-house and through all aspects, our vision is that details matter and so should every single product in your home. Essentially being more than beautiful products – they create a feeling.

NO PLACE LIKE HOME

Our home is our sanctuary. A sanctuary from the outside world and a place for living. By embracing simplicity and imperfection we create our personal refuge – a home in imperfect harmony, where we feel comfortable, inspired and are able to be ourselves.

By mixing different, yet complementing materials, we create balance in our homes, making room for personality to show through.

AND TEXTURES** CREATE THE
PERFECT BALANCE.

BRING COMFORT TO THE TABLE

The dining area is an important part of the home. It's not only where we eat, but also where we connect with each other. More than ever, the dining area is a space for living.

It's where we spend a lot of our time, lounging and socialising with friends and family over dinner, a glass of wine or a cup of coffee. So why not make it comfortable? Slow down and take your time. Enjoy the great company and the comfort of the living room at the dining table in soft, stylish and functional furniture.

EMBRACING SIMPLICITY

Let few, cherished items speak for themselves. Less is more, and every single piece in our home should have value and a purpose. Embrace simplicity without compromising on aesthetics with tone-in-tone colours, simple materials and sculptural beauty.

Items with soothing colours, organic shapes and tone-on-tone materials create calm, harmonious and intimate spaces within our home.
